## CAREER OBJECTIVE

---

Passionate Full Stack Developer proficient in front-end and back-end development. Seeking opportunities to leverage skills in Java, Spring Boot, and front-end technologies to build innovative web applications. Committed to delivering scalable solutions and fostering collaboration within cross-functional teams to achieve project objectives effectively.

## ACADEMIC DETAILS

---

2019-2023	<b>N.B.K.R. Institute of Science and Technology</b> , Vidyanagar, Bachelor's of Technology   CSE   8.2 CGPA
2017-2019	<b>Sri Pragathi Junior College</b> , Kota, AP Intermediate   M.P.C   9.5 CGPA
2016-2017	<b>Sri Siddhartha E.M School</b> , Kota, AP S.S.C   9.3 CGPA

## TECHNICAL SUMMARY

---

- I have strong knowledge of Spring REST calls such as GET, POST, DELETE, PUT, and PATCH.
- I have knowledge on Redux concept (developed a Food App, Esms Software).
- Skilled in managing projects with Maven and Gradle build tools.
- I have knowledge on Eureka Server, Load Balancing, Api gateway.
- I have Knowledge to develop Spring MVC and Thymeleaf for web application development.
- Exposure to basic security concepts with Spring Security.
- Familiarity with Java collections for data management.
- Utilized SLF4J for logging practices, ensuring clear error tracking and debugging.
- I have a skill on ORM concept in Spring Data JPA.
- I know how to manage the git repository.
- I have knowledge on Jenkins and CI/CD.

## TECHNICAL SKILLS

---

- **Programming Languages:** Core Java, Advanced Java (Servlets, JDBC, JSP), C#.
- **Front-End technologies:** HTML, CSS, JavaScript, React.js, React Native.
- **Front-End Frameworks:** Material UI, Ant Design.
- **Database Management:** Oracle, SQL.
- **Frameworks:** Spring, Spring Boot, Microservices, .Net.
- **Web Services:** Spring Rest, Spring Data JPA, Web Api.
- Object Oriented Programming (OOP) and DSA.
- **Development Tools:** Jenkins, Git & GitHub

## WORK EXPERINCE

---

### 1. Associate Software Developer

Nexgile Technologies, Hyderabad

May 2024 - July 2024

- Developed and maintained web applications using React, Java, .net and MySQL.
- Learned and developed a bus application using .net, React, SQL Server.

### 2. Java Internship

Deeptimaan info System Software Pvt Ltd, Hyderabad

oct 2024 - Mar 2025

- Developed a web application using React, Java, and MySQL.
- Learned and developed a hiring management software.

### 3. Freelancing

Esms Softcom Technologies, Hyderabad

Jan 2025 - present

- Currently working on a school management system using a **multi-tenancy architecture**.
- The project is **deployed and actively in use** across multiple institutions.
- Designed and developed to be **highly dynamic, configurable, and scalable**, supporting diverse academic workflows.
- Built **mobile applications using React Native (Expo)** for **teachers, parents, and administrators**, enabling real-time communication and data access.
- Integrated **role-based access control, secure authentication, and customized dashboards** for different user types.
- Implemented **RESTful APIs with Spring Boot**, ensuring seamless integration between the backend and mobile/web clients.
- Optimized **API performance and database queries** to support large-scale, multi-tenant environments efficiently.

## PROJECTS

---

### 1. Hostel Management. (Oct 2023 – Nov 2023)

- Proficient in Java, Advanced Java (Servlets, JDBC, JSP), OOP, and Oracle database management, with experience in Jenkins and Git & GitHub. Developed a Hostel Management System, employing HTML, CSS (Bootstrap), and JavaScript for front-end, and Java Servlets, JDBC, and JSP for backend, integrated with Oracle database. Contributed across the software development lifecycle, from design to deployment.

**GitHub Url:** <https://github.com/NEELIMANIKANTA/Hostel-Management.git>

### 2. Time To Eat (TTE). (Dec 2023 - March 2024)

- I'm a recent graduate enthusiastic about software development. Currently, I'm actively working on the "TTE" (Time to Eat) project, where I'm utilizing React.js, Java Spring Boot, and integrating Redux for cart management. This project aims to streamline the food ordering process. Additionally, I'm proficient in handling Oracle databases. My goal is to continue learning and refining my skills while contributing to the creation of user-friendly and efficient softwares.

**GitHub Url:** <https://github.com/NEELIMANIKANTA/TTE-Time-To-Eat-.git>

### 3. Smart Bus Booking. *(June 2024 - July 2024)*

- Designed and developed a smart bus booking system similar to RedBus, focusing on enhancing user experience and operational efficiency. Designed and implemented a user-friendly interface using React, Material-UI, and Ant Design, with motion effects powered by Framer Motion. Utilized .NET for backend services and SQL for database management, integrating real-time seat availability and secure payment processing. Collaborated with cross-functional teams to improve system performance and reliability, resulting in a significant reduction in booking process time and increased user satisfaction.

**GitHub Url:** <https://github.com/NEELIMANIKANTA/SmartBus.git>

### 4. Personal Portfolio.

- Proficient in HTML, CSS, and JavaScript, with a focus on developing visually appealing and interactive web projects. Developed a Personal Portfolio showcasing skills and projects using HTML for structure, CSS for styling, and JavaScript for interactivity. Implemented responsive design principles to ensure optimal viewing experience across devices, demonstrating strong front-end development skills and attention to detail.

**GitHub Url:** <https://github.com/NEELIMANIKANTA/Portfolio.git>

## COURSES & CERTIFICATIONS

---

- Front – End Development Internship in Suven Consultants | 4 weeks Internship
- Ethical Hacking training | Internshala | 2022 | 8 weeks course
